

Standard

Convert your canvas top to a one-time permanent solution. Our Standard Top is our most popular model of the Helmet Hardtops® series with thousands in use by the Armed Forces today. In this configuration, the cargo area is covered, similar to a sport utility truck. Our Standard is available in either 2 or 4 door configurations, with or without compartment storage.

- **Permanent Solutions to Canvas**
- **Secured Storage**
- **Maximum Headroom and Interior Space**

General Description

Our streamlined design features over 9 inches of additional headroom over canvas tops. In the field, this space allows ample clearance for secondary helmet equipment.

In addition, soldiers appreciate the enhanced interior environment, with far superior protection from water and dust along with reduced road noise.

Our design allows for easy installation and removal. Amtech's simplistic mounting system uses a basic angle bracket system designed to allow rapid installation with minimum vehicle preparation. The Helmet Hardtops® have been designed to be mounted on the HMMWV at unit-level shops.

The rear hatch access door is lockable and when our personnel doors are utilized, the complete HMMWV can be secured. To provide additional secured storage, we offer optional secured equipment compartments accessible from the outside of the vehicle and either side of the top.

Specifications

Top Dimensions

Length:	122.5 inches
Width:	85 inches
Height:	32 inches
Weight:	417 lbs.

Crated Dimensions

Length:	133.5 inches
Width:	91.5 inches
Height:	48 inches
Weight:	832 lbs.

- 500 lb capacity on ribbed & reinforced roof
- Amtech Cage Code is 0C8U3
- Hardtop will fit hard & soft doors
- Antennas are not provided
- Hardtop is reinforced for antenna mounts
- Camo paint is available upon request

Features

- Standard fiberglass shelter
- EMI shielding is available
- Hard points are available
- Cost effective upgrade from canvas
- Secure storage
 - Lockable compartments
 - Lockable back door
- Available headroom compared to canvas tops
- Desert Tan or Woodland OD Green
- CARC Finish is available as an option
- Optional AC for electronics
- Optional roof rack is available
- Optional gun ring system

Custom Development

Amtech Corporation's Military Products division has been providing custom solutions to satisfy new requirements emanating from new technologies. Major defense contractors have called upon Amtech engineers to design vehicle tops that protect a variety of systems used by Soldiers and Marines. Amtech Military Products are used in numerous programs including PROPHET, CESAS, CONDOR, TPCS, and BCOTM.

Custom Helmet Hardtops®

Custom engineered non-ballistic Helmet Hardtops can be designed specifically for a program's unique requirements. Sensitive electronic equipment is protected from rain and dust, optional air conditioning reduces heat stresses on the equipment, and the Aberdeen tested tops allow for installation of major antenna arrays, up to 500 lbs., without degrading the environmental effectiveness of the top.

Custom Armor Solutions

Amtech's Armor Solutions is a lightweight composite armor that can be adapted for any custom solution desired. Our products are manufactured with armor protection built into the shell -- not add-on armor.
